To Whom It May Concern:

I am against any new government regulations that could cost me and my business money. Enough is truly enough. You government agencies want to increase your control over my business and you have enough control as it is.

America has a long and proud tradition of freedom. That includes the freedom to choose your religion, your friends and to smoke. As an American, I do not appreciate being told by some government agency how to conduct my day-to-day business.

Americans like me resent too much government control, and this regulation is a good example. Government regulations should be fair, equitable, and serve some valid purpose. This is not the case with the proposed regulation.

We small business owners are tired of paying so much in taxes and being hit with more rules. I advise you not to pass this regulation.

As always,
